Thank you for volunteering to participate in this study. The experiment will consist of two fingerprint identification tasks and a training session between the tasks. The tasks and training will take no longer than 1 hour in total. During the tasks, you will be asked to identify and match fingerprints in a computer-based environment. This visual search task will be measured by accuracy and time performance. Training will also involve fingerprint identification task but feedback will be provided to indicate correct answers and areas of interest in the presented images.

All information you give us, including the data recorded by the software, will be kept confidential. Your identity will remain confidential to the extent provided by the law. There are no direct risks to you by participating in this study. The data generated during the experiment will be only reviewed and kept by the researchers. All data and forms from this experiment will be destroyed after five years. You may withdraw your participation at any time.

Have you had an opportunity to ask questions and to discuss the study?
